

Wood Juice™

WOOD STABILIZER

Developed to stabilize dry, semi-dry or sawn green wood to prevent future cracking or splitting.

- Also, rejuvenates old, dry wood.
- Does not contain silicone, wax or mineral oil.
- Once dry, WOOD JUICE will not migrate in the wood.
- Works best on unfinished wood.
- Wood can be treated afterward with any type of stain or finish.
- Wood can be glued with any type of glue after WOOD JUICE has dried.
- Used for treating pen blanks & knife handles.
- Contains UV protectant.

Made in the U.S.A.

32 fl. oz. (Quart) 946 ml

DIRECTIONS:

Do not dilute solution.

Treating dried wood:

Brush a generous amount of WOOD JUICE to all surfaces of the wood. Usually 1-2 applications are sufficient. Wood can also be soaked in WOOD JUICE. Once treated, allow the wood to dry slowly in an unheated, cool area. Once dry, it is suggested to clean the treated wood surface with a solvent such as mineral spirits or SOLVITOL prior to finishing or gluing. Be sure that all the solvent has dried off first.

Treating green wood:

WOOD JUICE can also be used in place of PENTACRYL on green wood that is cut to small sizes or wood species that are not prone to stress. When treating green wood, the wood should be saturated by soaking or brushing on 1-2 applications of WOOD JUICE.

Note: Cover wood with plastic in between brushing applications to prevent premature drying. For complete penetration into hard, dried wood,

allow 3 to 10 days of WOOD JUICE application depending upon thickness and density.

Soap and water clean up.

DISCLAIMER: Being that wood is a natural material and is susceptible to varying degrees of shrinkage, reaction, deterioration and because of varying climatic conditions, varying experience of the user and may be applied under conditions beyond our control, as seller, we make no warranty expressed or implied as to this material or its use. All information stated herein is accurate to the best of our knowledge and is based on thorough testing.

Low VOC's. Approved by Air Resources Board of California and Health Canada.
